

# Lands the World Has Never Seen

*Judy Barrows ©8/10/17*

*Em/capo 3 => Gm*

Em D  
First there are triangles, of blue or gold or grey

Em D  
Around them peer some animals, from half a world away

G D  
Others leap from peak to peak, or hide in corners dark

Em D  
While leaves spring up around them, in that wild jungle park

G D  
*It's a land the world has never seen, more true than those that be*

B7 Em  
*Full of life and beauty, it brings a smile to me*

Sometimes there's a prairie, reaching out to meet the sky  
With only a few antelope, or horses racing by  
But wait – I see a little mouse, a lizard ventures out  
The more you look, the more you'll see; life is all about

*(chorus)*

Cats that are true calico, nestled on a bed  
Dalmatians running through the fields, as a brown cow lifts her head  
Hens scratching in the barnyard, watched by a rooster bold  
Hex signs painted on the barn, and tools that don't grow old

*(chorus)*

Fish swim in sparkling waters, midst diamonds blue and green  
Mountain goats climb icy cliffs, while snowy owls preen  
Ladies ride on tigers, striped men on zebras tall  
While high above ... a blue moon, shines down upon them all

*They are lands the world has never seen, more true than those that be  
Full of life and beauty, they bring a smile to me*

*Lands the world has never seen, more true than those that be  
Full of life and beauty, they bring a smile to me.*
